

Sophisticated SAP solution empowers a leading tech distributor with superior, integrated, and reliable data-driven decision making

The world's largest technology distributor aimed to cement its market position by easing decision-making using BI, Cross-Functional Reporting, and Dashboard Management. Cybage was brought on board to apply the best agile approach for quality and faster delivery for complex requirements. Using the SAP Cluster solution to assure high production system availability, Cybage helped the distributor seamlessly manage common mergers, acquisitions, and business split scenarios.
