

A LEADING 3PL PROVIDER EXPERIENCES
25% DROP IN LABOR COSTS
WITH KÖRBER

THE CLIENT

A leading transportation and logistics provider **specializing in customized freight forwarding and supply chain solutions** headquartered in the Netherlands.

BUSINESS REQUIREMENTS

The business needed to migrate from the legacy WMS to a new one along with improving the KPIs of their operations team. Their order fulfillment capability was taking a hit and they needed 24/7 IT support as well as automation of several manual workflows.

BUSINESS INTEGRATION

End-to-end SDLC implementation for streamlining WMS development with Körber

Master Data creation for new warehouse location, license plate, and client rule setups

Seamless and easy client onboarding and WMS migration to Körber

24/7 IT support services

13000 hours dedicated to engineering engagement
